Capital Region

UNITED IS THE WAY WE HELP ALL FAMILIES THRIVE

United Way mobilizes the Capital Region to action so all can thrive. We bring everyone to the table to support our four pillars: community resiliency, healthy community, financial security and youth opportunity.

New Work for a Greater Impact

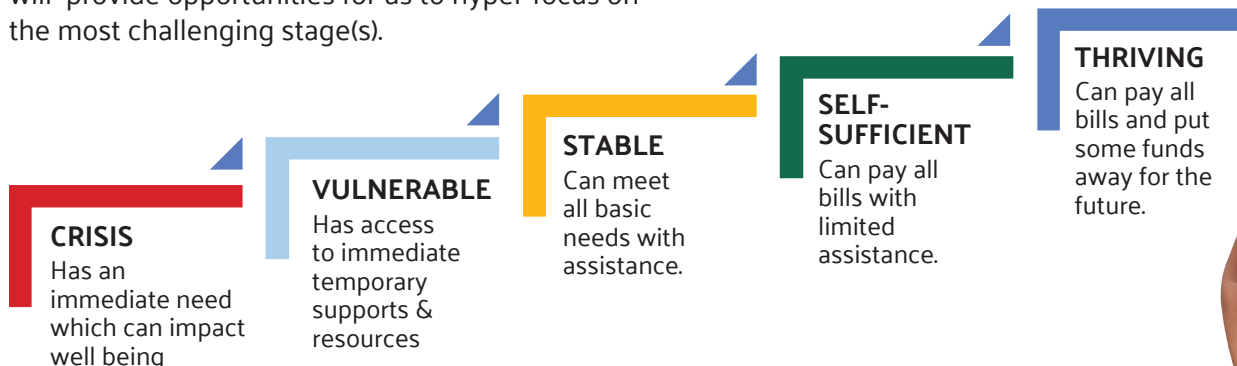

In 2024, we launched a pilot project at Susquehanna Township School District to bring our four pillars together to make a greater impact. Our community health workers partnered with the school nurse and social worker to help children and their families who frequently need these services. We connected families with employment opportunities, health care, food and shelter as well as our early education program for young siblings. This year, we will expand this program to other school districts.

Scaling Solutions

We are exploring a “super case manager” model to serve as the backbone for all our case managers. This role could help us identify and correct gaps in service and expand opportunities to help more families.

From Crisis to Thriving

United Way will implement the most comprehensive measurement tool to date to track the progression of people in our programs. This common goal system will provide opportunities for us to hyper-focus on the most challenging stage(s).
